INTRODUCTION: Good evening. May I please speak with NAME FROM FILE? My name is _____ and I'm calling from WPA Intelligence, a national public opinion firm. This evening we're conducting a short scientific survey in Arizona and we'd like to get your opinions. We're not selling anything and your responses will be completely confidential.

SCREENER

1. First, are you or any member of your immediate family a member of the news media, a Public Relations company, or an active participant with any political campaign?
 1. Yes..... TERMINATE
 2. No/All other100%

2. Thinking about the November 2020 election for United States President, Senate, Congress, and various state and local offices, do you plan to vote in this election? Would you say you...ROTATE TOP-TO-BOTTOM, BOTTOM-TO-TOP

Renewable Energy

Now thinking about renewable energy sources like solar or wind....

3. How much of a priority should it be for Arizona to grow and use renewable energy resources, such as wind and solar? Would you say it is ROTATE TOP TO BOTTOM; BOTTOM TO TOP very important, somewhat important, not that important, or not important at all?

5. Some say increasing our use of clean and renewable energy sources in Arizona, such as wind and solar, will create jobs and encourage economic development in the state. Would you say you **ROTATE** agree or disagree **END ROTATION** that increasing our renewable energy sources will improve Arizona’s economy?

IF AGREE/DISAGREE, ASK:

And, would you say you **STRONGLY** (agree/disagree) that renewable energy, such as wind and solar, development will benefit Arizona’s economy or just **SOMEWHAT**?

Utility Demand Plan

11. As you may have heard, clean energy sources like solar and wind are now often more affordable than traditional sources of electricity like coal and natural gas. However, for consumers, there may be short term, additional costs associated with closing down older coal and natural gas-fired power plants as we move toward using more renewable energy sources. Knowing this, Would you say you **ROTATE** support or oppose **END ROTATION** retiring coal and gas plants early if it meant a slight rate increase now for much bigger savings in the long run?

12. Arizona's biggest utilities have proposed to meet our growing demand for electricity almost exclusively through the purchase of energy from natural gas-fired power plants. Because Arizona is not a gas-producing state, this would require building new pipelines and storage facilities to transport the natural gas from out of state. Knowing this, would you say you **ROTATE** support or oppose **END ROTATION** this plan to use natural gas-fired power plants?
