

CoPIRG public written comment supplement:

In August 2023, GreenCorps ran a three day practicum around improving air quality in Colorado, with a focus on demonstrating support for the Colorado Clean Cars rule. They spoke to businesses and individuals about solutions to reduce pollution and improve air quality. Individuals had the opportunity to sign onto the following petition - **814 individuals and 129 businesses chose to support this petition:**

*Dear Gov. Polis,*

*The Colorado Clean Cars Initiative will bring more EVs into Colorado's marketplace and significantly reduce pollution from the transportation sector. I urge you to pass the full Colorado Clean Cars rule through 2035 to maximize benefits for consumers and clean air here in Colorado.*

Here are some of their photos!
